

ALMONDVALE POLL STUD

THE DAWNING OF A NEW VENTURE.

We are pleased to announce that in July 2014, our request for registration of a Poll Stud was accepted.

We have been using South Australian Poll genetics in our Bond Stud for 5 years. The natural progression was to purchase a draft of Stud Poll ewes for registration.

OUR AIMS ARE QUITE SIMPLE...

To continue to breed a BIG plain bodied, Dual Purpose Sheep that will cut a good style of medium microning wool, with excellent style, softness and length on a good heavy long carcass.

Having been in the Stud industry for 50 years, we are quite confident we are continuing in the right direction, with this decision.

Coupled with this, our White Suffolk Stud will continue to provide clients with excellent terminal sires, and thus continue to make **Almondvale** your one stop venue for your ram needs.

If we can be of any assistance please contact
